

Hampton Engineering

'32 Ford & Street Rods

Options

Hampton Engineering makes 3 types of panels for 32 Fords and any flat dash hotrod.

All bezels are machined from billet aluminum and chrome plated or black anodized.

The gauge panels are machined billet aluminum and chrome plated, black anodized, clear anodized or gold plated. The UltraDash is machined from over 1 inch thick billet aluminum and all gauges are recessed and face to the left towards the driver since the panel is normally mounted in the center of the dashboard.

The MaxiDash is flat and has an Overlay Panel that covers the gauge trim.

The VersaDash is a flat panel and accepts any 3 3/8" Tach & Speedometer & (4) 2 1/16" small gauges and gauges mount from the front.

Review the options below to design your unique custom panel.
